

**Dear Parents,**

Schools use many different documents in the process of providing education. We will also ask to regularly meet with parents to discuss your student's progress both academically, and socially.

In Washington State, you have a legal right to be provided these documents in your language, and to have an adult interpreter assist when you need to talk with Eastmont employees. These services are provided free of charge.

To request these services, please visit your student's school office, or our District Office at 800 Eastmont Avenue and ask for an interpreter, or call 509.884.7169.

We wish you and your students the best of experiences in Eastmont Schools. Please know all of us here at Eastmont work hard to see that every student graduates.

Sincerely,

*Eastmont Board of Directors  
And Eastmont Employees*
