

Equity Analysis Tool

1. Which groups of students will be most impacted by the decision, event or practice? What are the potential impacts?
2. How were the groups of students identified? What data supports this analysis?
3. What is the district's plan to improve expected outcomes for groups of students most impacted?
4. Did the district seek input from stakeholders (students, staff, parents,etc) on the plans to improve student outcomes? Any additional impacts/barriers to success identified?
5. How will the district evaluate if the plan worked?
